Re: RockFisch Band

To whom it may concern,

As Owner of Pickles Pub, I have had the pleasure of booking and working with the band RockFisch for the past 2 years and have known certain band members for over 15 years.

Pickles has always found them to be very reliable and professional. They have a very diverse song list and they are always entertaining and fun. They are consistent with their ability to bring patrons and their numbers prove their worth to Pickles every time. My staff and patrons look forward to their shows month after month and they never fail to bring something new and interesting to their performances. There are little touches to their show that are constantly evolving and keeping their audience entertained. They are true entertainers and enjoy the interaction with their fans.

I consider them to be among my top performing bands and if you choose to hire them, I am certain you will as well.

Sincerely,

Ginette Overall—Owner, Proprietor

To whom it may concern,

I just wanted to put a good word in for what I consider to be a very entertaining and accomplished band. The band is called "RockFisch" They have been involved in the Tulsa music scene for many years, and have an excellent following. They are responsible, well behaved and a pleasure to work with. They play a wide variety of crowd pleasing music and would be perfect for any venue or event. Please take a second to check them out. I'm sure if you would like to know more about them, Franklin Birt will be glad to follow up with information, or schedule notifications of where you can see them for yourself. Thanks for your time. I'm just trying to support good, local, fun music from our hometown musicians.

Thanks,

Carl Raynes - The Fabulous Mid Life Crisis Band

What do you call a band that does tons of songs you can't stand but you like that band doing them? RockFiscH is what you call them. This is the hardest band review I've written to date. I'm not a dance music sort of a guy. But I am a RockFiscH sort of a guy. These guys take mega dance hits; hit them hard, with their own flavor to them, medley almost everything and they make it work

Dance floor was packed. Band is not only good, they are animated; they leave the stage and wander around, dance with people while playing, even come sit at your table and play. The three across the front play various instruments, all sing lead, harmonize perfectly, swap leads, and put on a show. It's hard to define. When they do black dance songs they sound black, when they do white dance songs they sound white and everything sounds funky.

Never thought I would say this. They do the best version of "California Love" as a funky rap that I've ever heard. Bet you never heard anyone medley "Devil Went Down to Georgia" and "Love Shack". Second set features a 20 minute, non-stop, dance hit medley of 80's & 90's songs you ever can imagine. And when they do full songs such as "Billie Jean" they nail it. From "Staying Alive" to "Living in the Wild Wild West" to "Hungry Like the Wolf" it never stops.

This is simply the best dance band I've seen in Tulsa in my 6 years here. If you want to dance, forget the Electronica clubs. RockFiscH can be seen and heard at Pickles Pub the last weekend of every month.

Play that funky music white boys.
